BSc COMPUTER SCIENCE (EUROPEAN STUDIES) (G401)

Programme offered at: Durham.

Mode of study: this programme is available full-time.

LEVEL 1 (Certificate)

1	Data Structures	COMP1081	20
2	Introduction to Programming	COMP1011	20
3	Formal Aspects of Computer Science	COMP1021	20
4	Computer Systems	COMP1071	20
5	An appropriate foreign language module		
6	One 20 credit module chosen from any Board(s) of Studies		

LEVEL 2 (Diploma)

1	Programming and Reasoning	COMP2171	20
2-3	Software Engineering	COMP2092	40
4	Software Applications	COMP2071	20
5	Theory of Computation	COMP2181	20
6	Computer Systems II	COMP2161	20

YEAR 3 (Year Abroad)
An academic year spent abroad, during which students will be required to follow a course of study in which computing related modules comprise a minimum of 50%.
Note on Assessment and Progression:
Placement study in this framework will be assessed at threshold level; the student will be assessed by the host university in the way that is normal for their own students. In addition, the Board of Examiners may consider the marks reported by the host university when, at the end of the subsequent year, it is determining the degree classification of borderline cases. Students who receive one fail mark for the year abroad will not be allowed to proceed to the final year of BSc Computer Science (European Studies) but instead must proceed to the final year of BSc Computer Science.

LEVEL 3 (Degree)

1-2	Computer Science Project ~	COMP3012	40
3-6	80 credits from List A		

~ This module must be passed at 40% or above. A mark of 30-39% cannot be compensated.

Upon successful completion of each level, students may transfer to another programme within Computing Sciences providing they satisfy the regulations for that programme.

This programme is accredited by the British Computer Society for students entering Level 1 up to and including October 2009. Full exemption will be given to students graduating with an honours degree. Partial exemption (Certificate, Diploma and, for students passing Computer Science Project COMP3012 with a mark of 40 or above, PGD Project) will be given to students graduating with an ordinary degree.

MODULE LISTS : G400, G401, G403, G404, G600, G601

LIST A

Advanced Software Applications and Methods (20 credits)	COMP3331	20
Advanced Theory of Computation (40 credits)	COMP3342	40
Advanced Theory of Computation (20 credits)	COMP3341	20
Advanced Software Engineering (20 credits)	COMP3221	20
Advanced Artificial Intelligence (20 credits)	COMP3311	20
Advanced Computer Systems (20 credits)	COMP3121	20
